

Penclit NiceTouch T2™

Penclit NiceTouch is an easy to use touchpad and hand rest combination. It's designed to be the perfect partner to the small and sleek Penclit Mini Keyboard. Penclit NiceTouch provides high end functionality together with an ergonomic working position where the hand rests easily on the soft surface. The NiceTouch touchpad combined with smart Scandinavian design brings you comfort and efficiency while you work. It is modern keyboard technology and simplicity at its best.

Penclit NiceTouch features the intuitive touchpad, Quiet-Touch keys and a distinctive scrolling ability. The key to a healthy working position is a variety in body movement and a centered working position for your hands and arms which reduces and prevents pain problems like RSI. It is the comfortable hand rest, the touchpad and the scroll wheel combination that gives you that great centered working position.

“The best way of preventing RSI is to change the working position of your mouse. Work in front of your body and close to your keyboard!”

- Marianne Ahlberg, 30 years of Ergonomic experience and physiotherapist

There are no complicated movements necessary to operate the Penclit NiceTouch. It offers a familiar way to work and helps centre your working position. It no longer needs to be extremely expensive to get ergonomic computer accessories. The straight forward approach is what makes this touchpad and keyboard combination a great option to prevent RSI and comfortable way of working when spending long hours in front of the computer.
