

CABLE MANAGEMENT FOR CARPETS

SIMPLY MEASURE, CUT AND SECURE

Minimise trip hazards and conceal unsightly cords with the highly versatile Secure Cord Cover™.

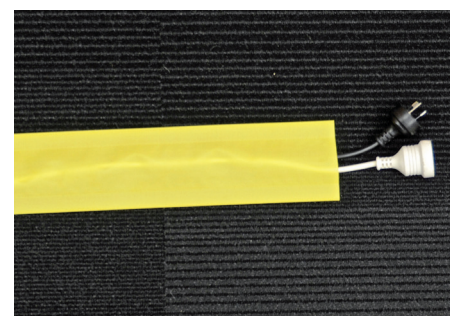

Secure Cord presents an original way to manage loose cables on carpet surfaces. Its unique design and 'cut-to-length' flexibility results in the lowest height profile possible while safely securing cords and avoiding the constraints of similar cord covers.

Easy to use

Simply pull required length of Secure Cord from dispenser box, cut with scissors and lay over loose cables, securing the underside grip hooks onto the carpet.

Re-useable, washable and a fraction of the price of other cord covers, Secure Cord is perfect for offices, expo floors, public spaces, stages, schools, churches – the list goes on!

KEY POINTS:

- 4" wide (100mm)
- Handy dispenser box available in two sizes: **82ft** or **16.5ft**
- Two colour options: Yellow (highlights cords) or Black (hides them)
- Cut to any length you desire
- For use on any loop pile carpet
- Lightweight, re-usable, washable
- Lowest height profile cord cover available, minimises tripping hazard.
